ALL PACKAGES INCLUDE

DON'T FORGET TO ORDER VIRUS INSURANCE FOR 2009/2010!

\$150 Protects you for the entire school year!
 (For Vista/XP only - not available for Mac's.)

Crippling viruses and spam can render your computer useless. When it reaches the point where erasing and reloading your hard drive is the only way to get your computer running again, it can take 4-5 hours of service - \$300 or more for just ONE instance.

VCS Virus Insurance protects you for the entire school year. At your request, we back up your data, erase your hard drive, reload the computer to it's "factory" condition, then copy your data back to the hard drive. Your data, pictures, music and videos are there, but the Infections are gone!

To order, just circle option "V" on the order form below. You DON'T have to order your computer from us to receive Virus Insurance Protection. It's available for any Vista or Windows computer!
